

## Help Us Keep Pets Safe – Verify Today

Dear User,

At Pets4Homes, our number one priority is the safety of pets rehomed on our site, which is why we provide verification. Verifying is safe, takes less than 1 minute and allows you to join a community of genuine pet lovers.

Why do we ask people to verify?

- **Put pets first.** By being transparent with your identity, both sellers and buyers can be sure that the person on the other side has genuine intentions and that the rehoming of the pet is done in a safe way.
- **Real people, real connections.** By verifying our users' identities, everyone knows who is on the other side - ensuring authentic interactions.
- **Safe rehoming.** Users are less likely to be misled or prompted to commit to a seller with ingenuine intentions.

**You are required to verify and until your verification is complete, your account will be temporarily put on hold.**

You can verify by clicking [HERE](#) or by clicking the green button below. Please note that **the link is active for 14 days.**

Get verified!

Your account and listings are on hold until your verification is complete. Once verified, your account and listings will automatically be approved again.

Thank you for contributing to making Pets4Homes a community of trusted and genuine users!

Kind regards,  
Pets4Homes team
